Kim Townsend

ANDERSON — The Anderson Housing Authority has been awarded a \$57,300 grant from the U.S. Department of Housing and Urban Development.

Kim Townsend, executive director of AHA, said Monday the funds will be used to install smoke and carbon monoxide detectors in the Lynwood Village apartments and scattered sites for public housing.

HUD announced last week that it awarded \$10 million to 65 Public Housing Agencies in 32 states across the country to make needed capital improvements that enhance safety and security for residents in public housing developments.

“Every resident deserves to feel safe in their home,” acting Secretary Adrienne Todman said in a press release. “The Capital Fund Emergency Safety and Security Program provides critical resources to enhance the protection of residents, safeguard public spaces, and respond swiftly when they need help. These resources will help create a safer, more secure environment for everyone.”

The funds are awarded through HUD’s Capital Fund Emergency Safety and Security Program, which supports authorities as they address the safety of public housing residents. The grants can be used to install, repair or replace capital equipment or systems that contribute to a safer living environment for residents, including security systems/surveillance cameras, fencing, lighting systems, emergency alarm systems, window bars, deadbolt locks, doors and carbon monoxide detectors.
